

Welcome all to Workshop 4 an interactive game on SI Funding !

- We hope you have had fun so far in ASIS Final Event.....in order to keep your attention and participation we have decided to have an interactive workshop ☺
- In ASIS we have established Guidelines to help Funding Bodies evaluate Social Innovation Projects.
- We had 2 options, a long detailed explanation.... Or a short and interesting activity where you will be able to learn by doing.....
- What are we going to do? A game where Entrepreneurs brainstorm on how to pitch their ideas and where Funding Bodies evaluate a pitch for funding
- We will divide you into Groups. Some will be FB and others Companies..
- In each breakout rooms you will have Ideas Posted with Key Points to take into account.
- The Funding Bodies make a check list of their “tender”
- The Entrepreneurs will make a describe their Business plan that is applying for funding.
- Each group will have 20 min. You will have to choose a Speaker and then present in the plenum
- But there is a catch! Some companies will be false innovators and will try to trick the funding bodies...
